Professional Summary

Full Stack Developer with hands-on experience building real-time web applications using React.js, Node.js, and MongoDB. Developed projects including a real-time chat application with messaging and calling features, an e-commerce platform, and a personal portfolio website. Skilled in REST API development, database management, and responsive UI design. Passionate about learning new technologies and building scalable, user-friendly applications.

Education

Babasaheb Bhimrao Ambedkar Bihar University (BRABU) Muzaffarpur

July 2027

Bachelor of Computer Application

Muzaffarpur, India

Experience

Full Stack Developer (Self Projects)

July 2024 – Present

- Developed a real-time chat application similar to WhatsApp using React.js, Node.js, and Socket.io
- Built an e-commerce web application (Amazon Clone) with product listing, cart, and checkout features
- Designed and developed a personal portfolio website to showcase projects and technical skills
- Implemented RESTful APIs and integrated frontend with backend services
- Used MongoDB for database management and data persistence
- Created responsive UI using Tailwind CSS and Bootstrap
- Managed version control and project deployment using Git and GitHub

Technical Skills

Programming Languages: JavaScript, Python, C++, Java, SQL, HTML5, CSS3

Frontend Technologies: React.js, React Redux, Tailwind CSS, Material UI

Backend Technologies: Node.js, Express.js, REST APIs, ASP.NET Architecture

DevOps and Tools: GitHub, Git

Databases: MongoDB, SQL Server, Firebase, ChromaDB

AI and Machine Learning: OpenAI GPT, AutoGen, OpenAI

Projects

WhatsApp Chat Clone | *React.js, Node.js, Socket.io, Vercel* | [GitHub](#)

June 2025

Developed a real-time chat application with instant messaging and calling features. Implemented real-time communication using Socket.io for seamless message delivery.

Built secure user authentication and managed chat data using MongoDB. Designed a responsive and user-friendly chat interface.

Implemented calling functionality using real-time communication techniques. Optimized performance to ensure smooth and low-latency interactions.

Twitter Clone | *JavaScript, Node.js, MongoDB, AWS* | [GitHub](#)

November 2025

- Full-stack social media platform with posts, comments, notifications serving 500+ users deployed on AWS.
- Developed REST APIs with Node.js and Express.js, MongoDB optimization, JWT authentication, WebSocket notifications.
